# U.S. Department of Housing and Urban Development Office for International and Philanthropic Innovation

## Our Goals:

- *Generate lessons, evidence, and best practices in housing and community development that can be applied to HUD's work;*
- *Advance HUD's capacity and competence to achieve better results through innovation and multi-sector, multi-national networks;*
- *Develop collaborations that align ideas, investments, and resources for transformative and sustainable development with philanthropic and international partners*

 COLLABORATING FOR LIVEABLE AND INCLUSIVE CITIES

Ashoka's Changemakers invite your innovative solutions where communities, entrepreneurs, and key institutions collaborate to integrate and develop affordable, inclusive, and sustainable urban housing that respects the environment, local cultures, and practices.

This competition funded by the Rockefeller Foundation, and is a joint effort of the U.S. Department of Housing and Urban Development, the U.S. Department of State, and the American Planning Association.

Visit us online **from now until February 2, 2011** to nominate or submit a solution for sustainable urban housing.

The three winners will each receive a cash prize of US \$10,000.
